My Fee Structure

As part of detailed financial planning, there are costs to you at various stages of the process. Before making any recommendations, I will discuss and agree the fees with you. Advice fees are inclusive of GST and payable by you at the following stages:

Recommendation: For having a personalised financial plan (SoA) prepared, a plan preparation fee is payable. The actual fee will depend on the complexity of your situation and the time it takes to prepare personal financial advice for you. On average, the fee for most clients would range between \$3,000 and \$7,000.

Implementation: I may charge a placement fee and/or implementation fee to implement the recommendations in your financial plan. These are payable when you decide to proceed with the implementation of any one or more recommendations that I provide to you. The actual fee will depend on the complexity of your situation and the amount of funds invested. On average, the fee for most clients would range between \$1,000 and \$3,000.

Ongoing Advice Service and Reviews: If you choose to have me conduct a review of your financial plan to ensure that your financial strategies and financial products remain appropriate to you, an ongoing fee will be incurred that is reflective of the complexity of your overall portfolio, the amount of funds invested and the number of reviews you wish to instigate. On average the fee for most clients would range between \$4,000 and \$8,000 per annum.

Where a placement fee and/or implementation fee is charged, I may rebate all or part of the initial commissions and/or ongoing commissions received from a product issuer, by way of an increase in your investment amount.

Where I receive an initial commission and/or ongoing commission amount, I may rebate all or part of the implementation and/or placement fee to you.

Note: Full details of all fees and commissions for financial services will be provided to you in a Statement of Advice (SoA), or Record of Further Advice (RoFA) and Product Disclosure Statements at the time of receiving any recommendation.

What Amounts do my Employer and Other Related Entities Receive for Financial Services?

All fees, commissions and incentives are received by Nexia Sydney Financial Solutions.

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance, rather than 1%, could reduce your final return.

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask your financial adviser.

To find out more

If you would like to find out more or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website has a managed investment fee calculator to help you check out different fee options.

What Other Benefits do I receive?

In addition to the remuneration detailed above, I am eligible to qualify for other benefits and entitlements as detailed below:

From time to time, we may accept alternative forms of remuneration from product providers or other parties (up to a value of \$300), such as hospitality or support connected with our professional development (e.g. training or sponsorship to attend conferences). We maintain a register detailing any benefit that we receive and other benefits that relate to information technology software support provided by a product issuer or that relate to educational and training purposes. A copy of the register is available on request.

Referral fees

I do not pay or receive referral fees to or from any other third party.
