

Sustainability and ESG

Navigating sustainability and ESG with expertise and insight

At Nexia Australia, we empower organisations to navigate the evolving landscape of sustainability, ESG (environmental, social, and governance), and climate reporting. Whether you're measuring emissions, preparing voluntary disclosures, or meeting mandatory requirements, our team delivers clarity, confidence, and actionable insights.

We combine technical expertise with strategic guidance, helping you turn emissions and climate-related reporting from a regulatory obligation into a catalyst for growth, reputation, and long-term value.

We help you move beyond compliance and achieve measurable outcomes that truly set your business apart and make a difference.

Our services

At Nexia Australia, we provide structured, end-to-end support. Our approach extends beyond compliance, helping you adapt to changing regulatory requirements, enhance transparency, communicate your organisation's purpose, and unlock opportunities for meaningful impact and long-term business value.

Our sustainability and ESG services are designed to deliver tangible results, build stakeholder trust, and drive sustainable growth.

Scope 3 emissions reporting

- Identify and quantify Scope 3 emissions across your supply chain in line with established and recognised frameworks (e.g. GHG Protocol).
- Establish processes for accurate, consistent, compliant reporting, including software-based calculations.
- Meet customer and regulatory expectations while leveraging Sustainability and ESG for business growth.

Voluntary sustainability and ESG reporting

- Conduct double materiality assessments to pinpoint key sustainability and ESG risks and opportunities.
- Implement transparent processes to track and report sustainability and ESG performance.
- Prepare reports that communicate your purpose, values, and societal contributions to stakeholders.

Preparation of mandatory reports

- Ensure compliance with all regulatory and mandatory reporting requirements.
- Streamline data collection, analysis, and reporting for efficiency and accuracy.
- Produce reports that clearly convey sustainability and ESG performance to stakeholders, clients, and regulators.

Mandatory climate reporting readiness

- Review current sustainability and ESG and climate reporting practices to identify gaps and areas for improvement.
- Recommend actionable steps to meet mandatory reporting requirements.
- Develop a roadmap for future reporting and sustainability and ESG initiatives.

Emissions assurance and compliance assistance

- Support your NGER compliance through our Registered NGER Greenhouse and Energy assurance services or by guiding you through external assurance and reporting.
- Strengthen project emissions processes with independent review and validation of project emissions assumptions, methodologies and calculations.
- Leverage our sector expertise in Carbon Capture and Storage, Safeguard Mechanism and National Pollutant Inventory regulatory framework compliance.

Emissions reporting systems

- Utilise our established NGER scope 1, 2 and 3 emissions reporting systems to streamline your emissions reporting processes.
- Implement fit-for-purpose forecast emissions calculations and reporting processes.
- Identify and track relevant and robust emissions-related metrics and targets.

Who we are

At Nexia Australia, we are your dedicated partner in purpose-driven sustainability and ESG reporting. As a leading accounting and advisory firm with decades of experience across diverse sectors, we deliver tailored solutions to help organisations achieve their goals.

Through Nexia's global network - spanning over 497 offices in 118 countries - we access world-class expertise and best practices. By drawing on the experience and insights of our international colleagues, we can support your organisation with the latest sustainability strategies and innovations.

This local knowledge and global perspective ensures you benefit from proven approaches, helping you maximise opportunities, drive efficiencies, and reach your personal and business objectives.
